

# xyz: a greate package that I created

by *Author One* and *Author Two*

**Abstract** An abstract of less than 150 words.

## Introduction

An introduction to the paper ...

## Another section (... that needs to be in the sentence case)

There will likely be several sections, including literature review with some references in the .bib file, some user case demos with code snippets as follows:

```
x <- 1:10  
plot(x)
```

and a plot with cross-reference and captions as in Figure @ref(fig:myplot),

## Summary

This file is only a basic article template. For full details of *The R Journal* style and information on how to prepare your article for submission, see the [Instructions for Authors](#).
